

/home/oscar/Documents
/HyperNeat/headers/CPPNInputs.hpp

```
graph TD; A["/home/oscar/Documents  
/HyperNeat/headers/CPPNInputs.hpp"] --> B[cmath]; A --> C[vector]; A --> D[cstring];
```

The diagram illustrates the preprocessor directives at the top of the file `CPPNInputs.hpp`. A central box contains the file path. Three arrows point from this box to three separate boxes below, labeled `cmath`, `vector`, and `cstring`, indicating that these headers are included in the file.
